Subject: Final Phase III Removal Assessment Trip Report - Canadian Radium and Uranium Corp. Site
Attachments: 170515_CRU_Final_Phase iii_Removal Assessment Trip Report.pdf

Dan,

Attached please find the Final Phase III Removal Assessment Trip Report for the activities conducted at the Canadian Radium and Uranium Corp. Site on December 12 through 14, 2016. The U.S. Environmental Protection Agency's comments to the prior version of the report (DC No: RST3-03-D-0206) have been incorporated as follows:

Section 2.0, included additional information for aerial overflight.

Section 4.0, updated EPA Site Assessment Manager.

Section 7.0, included information specifying that temporary wells were surveyed for TOC elevation.

Photo Log, deleted first sentence for photo # 9.

Figure 2, provided addition footnotes.

Figure 4, removed site features.

Figure 7, removed extra properties boundary lines and included additional footnotes.

The report was also updated with a table of content to provide clarity of information chronology.

Please let me know if you have additional comments.

Thanks,

Ben Nwosu
